

vot.ar | How to use it.

This is procedure to use the Unique Electronic Ballot (BUE)

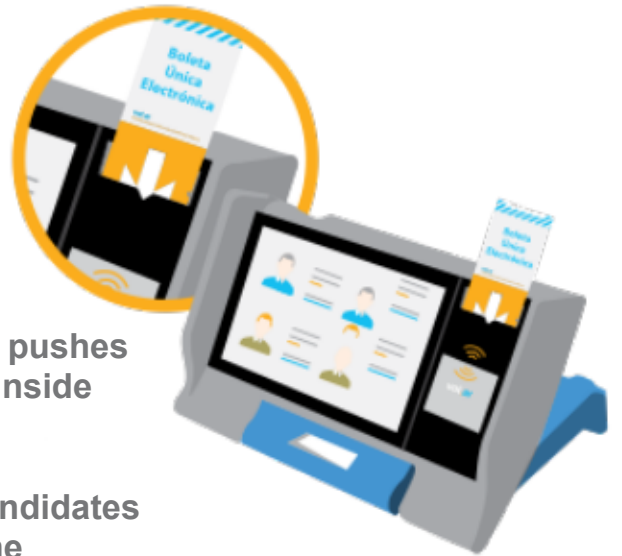

The voter submits his/her ID to the Election Authority.

The Election Authority removes the first die cut tag and gives it to the voter.

The voter inserts and pushes the Electronic Ballot inside the printer.

He/she selects the candidates simply by pressing the corresponding boxes on the screen.

Once the Electronic Ballot is printed, the voter will read what the machine printed.

He/She will also verify the electronic content of the ballot: by placing it on the verifier, the screen will show the what has been registered on the ballot's chip.

The voter folds the Ballot towards the limit of the second die cut tag. He/She goes back to the election official's table and removes the second die cut tag in front of the Election Authorities. Then the voter deposits the Electronic Ballot in side the ballot box. He/she signs the Election Records and receives his/her ID with the Proof of Voting Certificate.
